Active DoD Secret Clearance | Federal contractor experience

Professional Summary

Federal enterprise systems consultant with 7+ years of hands-on IBM TRIRIGA and IWMS experience supporting DoD and federal clients through government contractors. Deep experience in application development, workflows, Business Objects, forms, queries, REST and OSLC integrations, SQL, and real property systems. Combines technical delivery with business process understanding and stakeholder collaboration, with current Oracle APEX application support experience for USACE enterprise systems.

Core Skills

- IBM TRIRIGA Development (Application Builder, Workflows, Forms, Business Objects)
- IWMS Platforms & Real Estate Systems
- TRIRIGA Integrations (REST, OSLC)
- SQL Development & Data Analysis
- Oracle APEX Application Support & Development
- AutoCAD / CAD Integrator with TRIRIGA
- System Enhancements & Operational Support (O&M)
- Agile & Waterfall SDLC
- Federal Enterprise Environments (DoD / USACE)
- AWS Cloud Fundamentals

Professional Experience

Crystal Management (CMIT) | US Army Corps of Engineers (USACE) | Remote

Oracle APEX Developer / Application Support Engineer | Oct 2025 – Present

- Develop and support Oracle APEX applications for USACE operational systems.
- Create reports, process automations, and database integrations to improve data management.
- Build SQL queries, views, and reporting components for enterprise data workflows.
- Provide troubleshooting and operational support for production systems within federal environments.

TRIRIGA Application Developer | July 2024 – Sept 2025

- Developed and enhanced IBM TRIRIGA applications, including custom Business Objects, forms, queries, and workflows.
- Built custom UX interfaces to streamline TRIRIGA business object and operational processes.
- Developed SQL queries and integrations supporting real property, space, and lease modules.
- Translated stakeholder needs into practical enhancements for USACE real property and facilities systems.

ASRC Federal | Washington Headquarters Services (WHS) | Remote

TRIRIGA Application Developer | Oct 2023 – July 2024

- Developed IBM TRIRIGA applications using workflows, forms, queries, and Business Objects.
- Built React-based TRIRIGA UX components and prototypes to improve user workflows.
- Implemented REST and OSLC integrations to extend TRIRIGA platform capabilities.

Serco Inc. | Washington Headquarters Services (WHS) | Washington, DC / Remote

Technical Business Consultant – TRIRIGA Developer | Oct 2018 – Oct 2023

- Delivered TRIRIGA development for Department of Defense real property programs.
- Configured Business Objects, workflows, forms, and integrations across TRIRIGA modules.
- Integrated AutoCAD space data using IBM CAD Integrator for TRIRIGA.
- Developed SQL and BIRT reporting to support operational data needs.
- Assisted with TRIRIGA upgrades, troubleshooting, and operational system support.

Tower Hill Insurance Group | Gainesville, FL

Decision Research Analyst | Nov 2016 – Oct 2018

- Developed SQL queries and automation scripts supporting analytics and reporting.
- Built SharePoint tools to streamline internal team processes.
